Chapter 1 Introduction

The digital night vision monocular is equipped with advanced HD sensor, and adopts advanced digital imaging technology, to get clear view in in daytime and classic black & white viewing at night.

It helps to view the target and measure the distance. It can aim at the moving target and meet the outdoor condition. The device can be widely used in searching and rescuing, hiking, travel, etc.

This document introduces new features and optimizations in V5.5.48 of the products.
