# Chapter 1 Introduction

HIKMICRO ALPEX 4K series day & night vision scope is equipped with advanced 4k sensor, and adopts advanced digital imaging technology, to get clear view in in daytime and classic black & white viewing at night.

It helps to view the target and measure the distance. It can aim at the moving target and meet the outdoor condition. The device can be widely used in searching and rescuing, hiking, travel, etc.

This document introduces new features and optimizations in V5.5.124 of the products.

## Version Information

Item	Description
Firmware Version	V5.5.124 build 250607
Models	All ALPEX 4K models
Mobile Client	HIKMICRO Sight, latest version

## Chapter 2 Optimizations

HIKMICRO ALPEX 4K series digital day & night vision scope has been optimized to improve your experience.

### 2.1 Crosshair & Ballistics Optimization

- PIP (Picture-in-Picture) view now displays and centers on the ballistic holdover point when ballistic calculation function enabled;
- Linked ballistic profile to zero profile;
- Added Bullet Name in zero profile.

### 2.2 LRF Display Optimization

- The LRF (Laser Range Finder) reading now appears closer to the reticle and disappears automatically after 5 seconds by default;
- Fixed a bug where readings flickered as "---";
- THD (The Horizontal Distance) available.

### 2.3 Other Updates

- Enlarged Wi-Fi password display text for better readability.
